While, when a chance comes, do you have enough advantage to grasp it?

NEW QUESTION: 1

A network consultant must propose a scalable access-distribution model where an alternative to STP technology is used to prevent Layer 2 loops. The proposed model must include these features:

- * VLANs that span across the access switches
 - * eliminate the need for a FHRP protocol
 - * multichassis Ethernet technology to provide fast convergence in case of link failure
- Which design model does the consultant propose?

- A. routed access model
- B. multitier looped square access model
- C. multitier looped triangle access model
- D. virtual switch model

Answer: D

NEW QUESTION: 2

Company.com
