Want to pass VMware 2V0-71.23 certification exam, Real VMware 2V0-71.23 Dumps, After the clients buy the 2V0-71.23 study materials they can consult our online customer **2V0-71.23 Latest Braindumps Ppt** service about how to use them and the problems

which occur during the process of using.

We will give you some suggestions, first of all, you need to see the pass rate, for all the efforts we do to the 2V0-71.23 study dumps is to pass , Normally it should be operating online for the first time, if you do not clear cache, you can prepare 2V0-71.23 Key Content offline the second times.

2023 VMware 2V0-71.23: Unparalleled VMware Tanzu for Kubernetes Operations Professional Latest Braindumps Ppt We make exam preparation a breeze as we provide our customers [300-420 Detailed Study Dumps](#) with real exam questions and verified answers to ensure their exam success, You know, the time is very tight now.

Now you can go to free download the demos to check the content and function, Passing VMware 2V0-71.23 Certification Exams is just a piece of cake, VMware Certification updates **2V0-71.23 Latest Braindumps Ppt** itself consistently, so professionals also need to adapt themselves accordingly.

How can you make your employer think highly of you, It is no exaggeration to say that you can successfully pass your 2V0-71.23 exams with the help our 2V0-71.23 learning torrent just for 20 to 30 hours even by your first attempt.

We have full confidence that you can successfully pass the exam as long as you practice according to the content provided by 2V0-71.23 exam dump, Without chance, you will not be able to obtain your desired status and salary.

Simulating the real examination environment, To **2V0-71.23 Latest Braindumps Ppt** help you realize your aims like having higher chance of getting desirable job or getting promotion quickly, our VMware 2V0-71.23 study questions are useful tool to help you outreach other and being competent all the time.

**NEW QUESTION: 1** HOTSPOT **Answer:** Explanation: Box 1: Active Directory Federation Services (ADFS) The well-known HTTP basic authentication that you can use in scenarios such as Exchange Active Sync (ActiveSync). This is a new capability included in this release of Web Application Proxy. For the ActiveSync scenario, the authentication process includes four core steps: Box 2: HTTP Basic The well-known HTTP basic authentication that you can use in scenarios such as Exchange Active Sync (ActiveSync).

**NEW QUESTION: 2** Which option backs up an entire file system as a single object? **A.** Image Backup **B.** Selective Backup **C.** Incremental Backup **D.** Journal Backup **Answer: A**

**NEW QUESTION: 3** **A.** Option B **B.** Option A **C.** Option D **D.** Option C **Answer: B** Explanation: Topic 1, Contoso, Ltd Case A Overview Contoso, Ltd., is a recruiting and staffing company that has

offices throughout North America. The company has a main office and six branch offices. The main office is located in Miami. The branch offices are located in New York, Seattle, Los Angeles, Montreal, Toronto, and Vancouver.

#### Existing Environment

##### Network Infrastructure

The network contains one Active Directory domain named contoso.com. The main office has the following servers:

- \* One file server that maintains multiple shares
- \* Two domain controllers configured as DNS servers
- \* One Windows Server Update Services (WSUS) server
- \* Two DHCP servers that each have a scope for all of the subnets
- \* Two servers that have Failover Clustering configured and are used as virtualization hosts
- \* One server that has Microsoft SQL Server 2012 installed and maintains a customer relationship management (CRM) database

Each branch office has the following servers:

- \* One domain controller configured as a DNS server
- \* One DHCP server that has a single scope for its respective office

Each office has a single subnet. The network speed of the local area network (LAN) is 1 gigabit per second. All of the offices have a high-speed connection to the Internet. The offices connect to each other by using VPN appliances.

#### Current Issues

Users report that it can take a long time to download files from network shares in the main office. A root cause analysis identifies that network traffic peaks when the users experience this issue.

#### Requirements

##### Planned Changes

The company plans to implement the following changes:

- \* Replace all of the domain controllers with new servers that run Windows Server 2012.
- \* Upgrade the CRM application to use a web-based application that connects to the current CRM database. The web application will store session data in the memory of each web server.
- \* Initially, deploy two front-end web servers to two virtual machines. Additional virtual web servers will be deployed in the future.
- \* Monitor the availability of the CRM application and create alerts when the overall availability is less than 99 percent.
- \* Implement Microsoft System Center 2012 to manage the new environment.

#### Business Requirements

The company identifies the following business requirements:

- \* Minimize hardware costs and software costs whenever possible.
- \* Minimize the amount of network traffic over the VPN whenever possible.
- \* Ensure that the users in the branch offices can access files currently on the main office file server if an Internet link fails.

#### Technical Requirements

The company identifies the following technical requirements:

- \* Provide a highly available DHCP solution.
- \* Maintain a central database that contains the security events from all of the servers. The database must be encrypted.
- \* Ensure that an administrator in the main office can manage the approval of Windows updates and updates to third-party applications for all of the users.
- \* Ensure that all of the domain controllers have the ReliableTimeSource registry value in HKEY\_LOCAL\_MACHINE\SYSTEM\CurrentControlSet\Services\W32Time\Parameters set to 1, even if an administrator changes that value manually.

#### Virtualization Requirements

The company identifies the following virtualization requirements:

- \* Minimize the number of

permissions and privileges assigned to users.\* Ensure that the members of a group named Group2 can add a WSUS server to the fabric.\* Ensure that a diagram view of the virtualization environment can be generated dynamically.\* Minimize the amount of administrative effort required to manage the virtualization environment.\* Prevent the failure of a front-end web server from affecting the availability of the CRM application.\* Ensure that the members of a group named Group1 can create new virtual machines in the Los Angeles office only.\* Only create virtual machine templates by using objects that already exist in the System Center 2012 Virtual Machine Manager (VMM) library.\* On the failover cluster in the main office, apply limited distribution release (LDR) updates to the virtualization hosts without disrupting the virtual machines hosted on the virtualization hosts.
