NEW QUESTION: 1

You are developing an ASP.NET MVC application that supports multiple cultures and multiple languages. The application will be sold to international customers.

The ASP.NET MVC application must store localized content in satellite assemblies for multiple languages.

You need to generate the satellite assemblies during an automated build.

Which tool should you use?

- A. Gacutil.exe
- B. nasm.exe
- C. Ildasm.exe
- D. Al.exe

Answer: D

Explanation:

Use the Assembly Linker (Al.exe) to compile .resources files into satellite assemblies. Al.exe creates an assembly from the .resources files that you specify. By definition, satellite assemblies can only contain resources. They cannot contain any executable code.

The following Al.exe command creates a satellite assembly for the application MyApp from the file strings.de.resources.

```
al /t:lib /embed:strings.de.resources /culture:de
```

```
/out:MyApp.resources.dll
```

Answer: B

NEW QUESTION: 4

On January 1, 2003, Mill Corporation leased a machine to Ott Corporation for a 5-year term at an annual rental of \$50,000. The lease is an operating lease. At the inception of the lease, Mill received

\$ 100,000, covering the first year's rent of \$50,000 and a security deposit of \$50,000. This deposit will not be returned to Ott upon expiration of the lease but will instead be applied to payment of rent for the last year of the lease. Mill properly reported rental revenue of \$100,000 in its 2003 income tax return. Mill's tax rate was 30%. In Mill's December 31, 2003, balance sheet, what portion of the \$100,000 should be reported as a liability?

A. \$35,000

B. \$40,000

C. \$50,000

Answer: C

Explanation:

Deposits and prepayments received for services to be provided in the future are unearned revenues that should be recorded as a liability until earned. The first year's rent is recorded as rent revenue, but the \$50,000 deposit is recorded as rent collected in advance (unearned rent) because Mill is required to render future services (use of the machine) to the lessee. The rate (30%) does not affect the amount of the liability to the lessee, although a separate future income tax asset may be recorded in certain circumstances.
