**NEW QUESTION: 1**

Refer to the exhibit.

A NOC engineer needs to tune some postlogin parameters on an SSL VPN tunnel.

From the information shown, where should the engineer navigate to, in order to find all the postlogin session parameters?

- A. "engineer1" AAA/Local Users
- B. DefaultWEBVPNGroup Group Policy
- C. "engineering" Group Policy
- D. DefaultRAGroup Group Policy
- E. "contractor" Connection Profile

**Answer: C**

Explanation:

Explanation

[http://www.cisco.com/en/US/docs/ios/12\\_4t/12\\_4t11/htwebvpn.html#wp1054618](http://www.cisco.com/en/US/docs/ios/12_4t/12_4t11/htwebvpn.html#wp1054618) The policy group is a container that defines the presentation of the portal and the permissions for resources that are configured for a group of remote users. Entering the policy group command places the router in webvpn group policy

configuration mode. After it is configured, the group policy is attached to the SSL VPN context configuration by configuring the default-group-policy command.

The following tasks are accomplished in this configuration:

- \* The presentation of the SSL VPN portal page is configured.
- \* A NetBIOS server list is referenced.
- \* A port-forwarding list is referenced.
- \* The idle and session timers are configured.
- \* A URL list is referenced.

**NEW QUESTION: 2**

- A. Option B
- B. Option C
- C. Option A
- D. Option D

**Answer: C**

Explanation:

The double keyword signifies a simple type that stores 64-bit floating-point values.

The float keyword signifies a simple type that stores 32-bit floating-point values.

Reference: double (C# Reference)

**NEW QUESTION: 3**

Which of the following are the responsibilities of the owner with regard to data in an information classification program? Each correct answer represents a complete solution. Choose three.

- A. Reviewing the classification assignments at regular time intervals and making changes as the business needs change.
- B. Running regular backups and routinely testing the validity of the backup data.
- C. Determining what level of classification the information requires.
- D. Delegating the responsibility of the data protection duties to a custodian.

**Answer: A,C,D**

Explanation:

The following are the responsibilities of the owner with regard to data in an information classification program: Determining what level of classification the information requires.

Reviewing the classification assignments at regular time intervals and making changes as the business needs change.

Delegating the responsibility of the data protection duties to a custodian. An information owner can be an executive or a manager of an organization. He will be responsible for the

asset of information that must be protected. Answer B is incorrect. Running regular backups and routinely testing the validity of the backup data is the responsibility of a custodian.
